

Friendly Staff
Expert Instruction

Central Penn Music's goal is to make music education fun for all students while creating a safe, professional and comfortable learning environment.

Our Program...

features weekly 30 minute one-on-one lessons with an instructor who specializes on their instrument.

Throughout the year, there will be opportunities for students to demonstrate the skills they have learned by performing in our recitals. Attendance at these optional recitals is open to all family and friends of students in our lesson program.

Central Penn Music teachers work with students of any age and any level. We work to custom tailor each lesson to your students specific needs and goals.
